PROFILE

Highly motivated and dedicated individual seeking a challenging position as a fresher in the field of Computer Applications, utilizing my educational background and technical skills to contribute to the success of an organization.

EDUCATION

Bachelor of Computer Applications   2019 – 2022
RNS First Grade College   Bengaluru, India

Master of Computer Applications   2022 – 2024
Dayananda Sagar Of Engineering   Bengaluru, India

TECHNICAL SKILLS

Python, JavaScript, HTML & CSS, SQL, JAVA, GO-Lang

INTERNSHIP

Daali Production(Film Industry)   12/2023 – 03/2024
Prompt Engineer Intern
I worked as a Prompt Engineer Intern at Daali Production, where I contributed to the development of cutting-edge technology for voice and image generation within the realm of artificial intelligence. I developed models using frameworks such as OpenAI's GPT, DALL·E, and Hugging Face's Transformers. Additionally, I conducted Lora Training, Mid Journey and Stable Diffusion.

ContentEase.Ai   11/2023 – 07/2024
Software Developer Intern
As a Software Development Intern, my primary responsibilities involve working on various tech stacks including WordPress, Shopify, Vue JS, Python Fast API, AWS, Open-Al and various other third-party applications required to develop Al-based applications/products. This is a wonderful opportunity to apply my theoretical knowledge to practical applications, increase my knowledge and skills with hands on experience inthe industry.
