PROFESSIONAL EXPERIENCE

Knowledgeflex Technologies PVT LTD

12/2025 – Present | Bengaluru

AI Engineer

- Architected and deployed a highly scalable **SaaS platform** for **AI-driven meeting summarization**, independently managing the **end-to-end application lifecycle** from a responsive **React.js** frontend to secure **Node.js/Express.js** backend APIs.
- Developed and optimized end-to-end meeting workflow **management features**, enabling **seamless scheduling**, **note organization**, **summary generation**, and **task tracking**.
- Engineered AI workflows utilizing **Retrieval-Augmented Generation (RAG) pipelines** and **vector databases** to automate **meeting transcription** and **extract actionable decisions**.
- Optimized full-stack performance and executed **cloud deployment strategies**, ensuring high availability and real-time collaboration for end-users.
- Collaborated with senior Developers to implement new features and enhancement.

TECHNICAL SKILLS

- Programming Languages:** Python, JavaScript, Golang, SQL
- Web Technologies and CMS platforms:** HTML, CSS, Vue.js, WordPress, Shopify
- Web Frameworks:** FastAPI, Flask, Django
- Cloud and DevOps:** AWS, Docker
- AI/ML:** Deep Learning, NLP, LoRA Training, Generative AI Systems, Multi-Agent Architectures, Autonomous Task Chaining
- AI Frameworks and Libraries:** PyTorch, TensorFlow, LangChain, Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn
- LLMs & APIs:** OpenAI API, Hugging Face Inference API
- AI Techniques:** Prompt Engineering, Retrieval-Augmented Generation (RAG), Text Summarization, Multilingual Translation

INTERNSHIPS

Daali Production(Film Industry)

05/2024 – 03/2025 | Bengaluru

Prompt Engineer Intern

- Designed and fine-tuned **prompts for GPT and image generation models** such as **DALL-E**, **MidJourney** and **Stable Diffusion**.
- Conducted **LoRA training** to optimize AI models for creative media use cases.
- Leveraged tools from **Hugging Face** to **accelerate AI-driven content creation**.

ContentEase.AI

11/2023 – 07/2024 | Bengaluru

Software Developer Intern

- Worked across **LLM**, **computer vision**, and **backend automation pipelines** to build real-world AI systems, and implemented **CI/CD pipelines** to automate testing, deployment, and delivery for faster, more reliable releases.
- Engineered and integrated **LLM-based** function calling to automate workflows, enabling structured, reliable responses and seamless execution in production systems.
- Fine-tuned **YOLO models** for specialized computer vision workflows, boosting detection accuracy and performance for niche business use cases.
- Developed end-to-end **RAG pipelines** using **FAISS**, **Chroma**, and **Pinecone**, significantly enhancing retrieval accuracy and contextual reasoning for enterprise applications.
- Contributed to **backend integrations**, **APIs**, and **cloud deployments** to support end-to-end AI features in production.

ACADEMIC PROJECTS

MCA

YouTube Summarizer

Built a web application that enables users to input video links and receive instant summaries using **NLP libraries** like **Gensim**, **spaCy**, and **NLTK**.

Multimodal Content Generation Using LLMs

AI assistant for text + image generation using **Gemini Vision Pro**, **Stable Diffusion**, **Hugging Face models**.

BCA

Covid Testing And Management

Designed and Implemented a desktop application to **automate test record** and **migration permit** using **VB .NET** and **MySQL**

EDUCATION

Master of Computer Applications

2022 – 2024 | Bengaluru, India

Dayananda Sagar Of Engineering

8.3 CGPA

Bachelor of Computer Applications

2019 – 2022 | Bengaluru, India

RNS First Grade College

7.4 CGPA
